Energy Policy

Our College is dedicated to maintaining a sustainable and energy-efficient campus. Through the implementation of this energy policy, we aim to reduce our environmental impact, conserve energy, and promote the use of renewable energy sources. This policy reflects our commitment to environmental stewardship and responsible resource management.

1. Reduce Energy Consumption: Implement measures to reduce overall energy usage through efficient practices and technology.
2. Promote Renewable Energy: Increase the use of renewable energy sources as early as possible within the campus.
3. Foster Awareness: Educate and encourage the college community to adopt energy-saving practices.
4. Continuous Improvement: Regularly review and enhance energy management practices.
5. Use of Energy Conservation Methods: Always use Energy conservations methods and promote such methods.
6. Use of Energy Efficient Lighting: Increase the energy saving electric and electronic materials.
